

DiskOnChip Millennium Module

8MB Capacity, 32-Pin DIP, 5V

Description

M-Systems announces the availability of a new product, DiskOnChip Millennium Module with 8MByte (MB) capacity. It will replace DiskOnChip Millennium 8MB DIP, and will be available in commercial temperature range.

Ordering Information

DiskOnChip Millennium Module is available as follows:

Product Name	Form Factor	Capacity (MB)	Voltage	Temperature Range	Ordering Info
DiskOnChip Millennium Module	32-pin DIP	8MB	5V	Commercial	MD2802-D08

Availability

DiskOnChip Millennium Module will be available from September 1, 2002.

Compatibility

DiskOnChip Millennium Module is hardware and software-compatible with DiskOnChip Millennium 8MB DIP. The same TrueFFS version can be maintained when upgrading to the new device.

How to Contact Us

Please contact your M-Systems' representative or visit the DiskOnChip web page on M-Systems' website (www.m-sys.com) for any further information or assistance.
